Director, IIT Bombay

“ The Indian Institute of Technology Bombay was established in 1958 to provide leadership in education and research with a focus on science and technology. Over a period of more than decades, about 60,000 students have graduated from the Institution with Bachelor's, Master and PhD degrees. IIT Bombay today is the leading institution globally for education in engineering, management, pure and social sciences.

The institute is committed to creating an ambiance for nurturing innovation, creativity, and excellence in our students. We strongly support interdisciplinary research and development for the benefit of Industry and Society.

Shailesh J. Mehta School of Management is an essential component of this strategy. SJMSOM was established in 1995 to provide leadership in the area of management education with an emphasis on developing all-round managerial skills. We are proud to say that the School is ideally placed to exploit the synergies with the engineering and science departments at IIT Bombay. In doing so, we believe the School will continue to create unique and novel programs to make significant contributions to management as a domain. ”

S.V.D. Nageswara Rao

Head, SJMSOM

“

The School of Management was established in 1995 to offer Postgraduate Programme (MBA), and Doctoral (Ph.D.) Programme, and Executive Masters Programme (EMBA) for working executives (jointly with Olin Business School of Washington University). We also offer short-duration and long-duration management development programmes (MDPs) which include company-specific training programmes.

The students benefit from the best curriculum which is relevant for the needs of the industry. The faculty are known for their expertise and achievements in research, training, and consultancy. The School also has associate faculty from other academic units of IIT Bombay, and visiting faculty from the industry to bring the practitioner's perspective. The institute offers the additional advantage of collaborating with other academic units and access to their resources for interdisciplinary research.

We plan to strengthen our doctoral programme and ensure that doctoral students account for about half the total students to improve the research profile of the School. We shall actively encourage new faculty additions in identified areas given the planned new initiatives and expansion of the existing programmes. The School shall also explore the opportunities to offer joint programmes with IIMs, and the All India Management Association (AIMA) in upcoming areas. We also plan to expand the collaboration with Washington University by offering a joint part-time MBA for working professionals in and around Mumbai during alternate weekends.

We have submitted a detailed proposal to establish a Centre of Research in Financial Markets (CRFM) to be funded by banks and other financial institutions. The research in the areas of banking and financial markets in India lags behind that in developed countries despite the large number of high-quality institutions in the country. There is a need to establish and support a credible alternative in the form of CRFM. This is an ambitious initiative to be led by the School with support from other academic units of the Institute. This center will lead education, research, and training in financial markets.

We also plan to set up additional research labs such as Competitiveness Lab, Economics and Development Lab, Finance Lab, Bank Lab, and High-Frequency Trading Lab in addition to the existing labs to strengthen the research infrastructure subject to the availability of adequate additional space, and other resources.”

About SJMSOM

Founded in 1995, the School of Management at IIT Bombay aimed to mold professionals into future leaders. In 2000, it was officially named the Shailesh J. Mehta School of Management (SJMSOM). Presently, the school stands at the forefront, equipping graduates to tackle the evolving challenges in business. Leveraging the diverse intellectual resources of IITB, it offers exceptional and innovative management education programs.

MBA

The School of Management through its flagship Master of Business Administration (MBA) programme seeks to develop managers and leaders for an integrated understanding of all business functions. The rigorous curriculum has a judicious blend of courses from all functional areas of management – Decision Sciences, Economics, Entrepreneurship, Finance, Human Resources, Marketing, Operations, Organizational Behaviour, Strategy and Technology Management that provide an in-depth understanding of all business functions.

Key emphases of the program include:

Holistic comprehension of various business aspects

Guest lectures and seminars by senior industry executives

Analytical reasoning, teamwork, and effective communication skills

Industry interaction through projects & summer internships

Admission Criteria

For Domestic Candidates:

1. Four year Bachelor degree in any discipline or Master degree in any discipline with at least 60% marks (55% in case of candidates belonging to SC/ST/PWD category) or minimum CPI of 6.5 (6 in case of candidates belonging to SC/ST/PWD category) out of 10 from institutions / universities incorporated by an act of parliament or state legislature in India or other institutions declared to be deemed as University under Section 3 of the UGC Act, 1956, or possess an equivalent qualification recognized by the Ministry of Education, Government of India.
2. Candidates in final year of the degree and those awaiting results can also apply. The applicant should have secured an aggregate of 60% marks (55% in case of candidates belonging to SC/ST/PWD category) or equivalent till the latest exam that has been completed and whose scores are available. The admission will be subject to candidate fulfilling the eligibility criteria.
3. CA, CS, CFA, ICWA or FRM with first class Bachelor degree in any discipline having secured 60% marks (55% in case of candidates belonging to SC/ST/PWD category) in aggregate (including all years/semesters) or minimum CPI of 6.5 (6 in case of candidates belonging to SC/ST/PWD category) out of 10 from institutions / universities incorporated by an act of parliament or state legislature in India or other institutions declared to be deemed as University under Section 3 of the UGC Act, 1956, or possess an equivalent qualification recognized by the Ministry of Education, Government of India.
4. The candidate should have a valid CAT score.

Core Curriculum

Term 1

- *Communication and Inter-Personal Skills*
- *Statistical Methods*
- *Microeconomics*
- *Fundamentals of Financial and Managerial Accounting*
- *Marketing Management – I*

- *Marketing Management – II*
- *Corporate Finance – I*
- *Information Systems*
- *Decision Models in Management*
- *Macroeconomics*
- *Operations Management – I*

Term 2

Term 3

- *Corporate Strategy*
- *Operations Management – II*
- *Corporate Finance – II*
- *Organizational Behavior & Human Resources – I*
- *Technology Management*
- *Corporate Governance & Business Ethics*

- *Business Research Methods*
- *Organizational Behavior & Human Resources – II*
- *Legal Aspects of Business*

Term 4

Electives

Accounting & Finance

- Security Analysis and Portfolio Management
- Derivatives and Risk Management
- Mergers, Acquisitions and Business Valuation
- Fixed Income Securities
- International Finance
- Management of Banking and Financial Services
- Foundations of Private Equity and Venture Capital
- Econometrics of Financial Markets
- Quantitative and Algorithmic Trading
- Markets and Treasury-Functional Architecture and Processing
- Business Dynamics Modelling and Simulation
- Financial Modelling
- Sustainable Finance
- Indian Financial and Business Models

Economics

- Economics of Development in India
- Business and Sustainable Development
- Behavioral Economics
- Cooperative Game Theory
- Game theory Of Business Decisions
- Infrastructure Development and Financing
- Economics Of Firm Strategy
- International Trade

General Management

- Managing Intellectual Property
- Managerial Effectiveness Skills

Decision Sciences & Quantitative Techniques

- Business Forecasting
- Business Dynamics Modeling and Simulations
- Multivariate Data Analysis
- Predictive Analytics
- Decision Models in Management

Information Technology

- Software Project Management
- Information Technology Infrastructure Management
- Electronic Business Strategies and Implementation
- Intelligent Systems
- Managing Digital Product

Electives

Operations & Technology Management

- Warehouse Operations
- Behavioral Operations Management
- Operations Strategy
- Project Management
- Purchasing and Supply Management
- Supply Chain Optimization
- Introduction to ERP
- Quality Management
- Advanced Planning and Scheduling
- Large Scale Optimization

International Business

- Managing International Business and Policy
- WTO and Indian Business
- International Trade
- Political Economy, Development, and Governance
- Managing with New Business Models in a Knowledge Economy

HR Management & Organizational Behaviour

- Management of Change
- Management Control Systems

Technology & Strategic Management

- Technology Management
- Project Management
- Corporate Competitiveness
- Strategic Management of Technology
- International Competitiveness
- Competitiveness for Sustainable Enterprise

Marketing

- Strategic Marketing
- Brand Management
- Advertising and Media Management
- Consumer Behaviour
- Business to Business Marketing
- Online Marketing
- Sales and Distribution Management

Important Events

Avenues, the annual business fest of IIT Bo**MB**Ay

Avenues is three-day long annual business festival of SJMSOM. It consists of a host of events targeted at budding managers with fun at its core. The students from India and abroad participate in this annual extravaganza to outdo and outlast the competition. Student teams are responsible for the sponsorship, logistics, creatives, PR, marketing, and execution of the event. The events, among others, include Alankar—the leadership talk series, case competitions, cultural events, and Pronites—which include performances by top comedians and a night of music and dance.

Avenues has evolved significantly since its inception. In 2023, themed "Fostering Innovative Ecosystem," it aimed to raise the bar through competitive events, leadership lectures, engaging pronites, cultural events and panel discussions.

As part of Avenues, the Alankar – Global Leadership Summit offers a platform for engaging with eminent leaders and sharing their experiences. Past speakers include Shushant Singh Rajput, Tisca Chopra, Kamal Haasan, Adi Godrej, Harsha Bogle, Saugata Gupta, Devdutt Pattanaik, Niranjan Hiranandani, and more.

Continuum

The rolling seminar series encompasses different management domains viz. Consulting, Finance, Human Resources, Marketing, Operations, and Systems. They bring together eminent speakers from industry and academia. The seminars focus on relevant issues and challenges faced by managers in the current context.

Each year, Continuum hosts distinguished speakers from industry and academia, addressing relevant issues and challenges in the current economic climate. The seminars include interactive talks, panel discussions, and hands-on workshops. These events attract attendees from various organizations, distinguished alumni, and students from other business schools and departments at IIT Bombay.

Diksha

The students invite doyens from the industry and academia to share their valuable insights given their rich experience as part of Diksha Sessions. Inspired by the traditional Indian concept of "Diksha," the SJMSOM, IIT Bombay, welcomes industry and academic experts to share valuable knowledge and insights with students. Diksha serves as a forum where captains of the industry and esteemed academicians discuss and analyze contemporary business issues in depth. These leaders, renowned for their contributions, provide firsthand perspectives on topics, encouraging students to understand the challenges faced by leaders.

Recent Speakers include Mr. Akash Agrawal, Data & Analytics, Tata Consumer Products; Mr. Anuj Bansal, Vice President – FP&A, Mastercard; Mr. Gaurav Kejriwal, VP EXL, EXL Analytics; Mr. Madhur Maheshwari, COO, NPCI; Mr. Nitin Jain, Co-founder & CBO, OfBusiness; Mr. Rajeev Kumar, Head Program Management – SCM, Dr. Reddy's Laboratory; Mr. Sandeep Pal, CBO Pantaloons, ABFRL; Mr. Sunil Hardikar, Director – Consulting Practice, Hitachi Vantara; Ms. Varsha Varadarajan, Manufacturing Excellence & Transformation, Global Supply Chain, Castrol.

Clubs and Committees

SOMA Council

SJMSOM actively promotes hands-on learning in management. To foster student involvement in policy-making, implementation, and day-to-day affairs, the SOMA (School of Management Association) was established. As the apex decision-making body, this joint faculty-student council manages all student-driven activities. Its main functions include budgeting, organizing events like distinguished lectures, and maintaining a vital link with the school's esteemed alumni, who contribute significantly to the school's strength and success.

Below are various domain clubs and teams we have under SOMA :

International Student Exchanges & Relations

To adeptly address the dynamic changes and challenges unfolding globally across various domains, the school actively incorporates International Relations as an integral component of its curriculum. It aims to foster international engagement among students through various channels. IIT Bombay has established Memorandums of Understanding (MoUs) with several global universities, and the school plans to capitalize on these collaborations to offer international exposure to its students. Recognizing the importance of a global perspective in the success of emerging managers and future leaders, the school is committed to promoting activities that enhance international understanding and collaboration.

Executive MBA

Shailesh J. Mehta School of Management, in association with Olin Business School, Washington University in St. Louis, offers a unique, first-of-its-kind, joint-degree Executive MBA program. This program which is focused on honing leadership skills of upwardly mobile professionals and entrepreneurs, accords them an opportunity to pursue education while continuing to attend to their expanding business responsibilities. A program typically beginning in April every year is spread over 18 months, with a residency of 4 days once in a month, for 17 consecutive months in Mumbai followed by a two-week capstone experience in Olin Business School. A convenient Thursday to Sunday residency format makes a demand of only two working days and only two week-end days, once in a month, on a busy professional. Each residency in Mumbai is focused on one core course through a full-day engagement over 4 days.

Management Development Programme

The School of Management offers Management Development Programs (MDPs) for corporate executives and professionals. These programs aim to enhance competencies in areas such as Finance, Marketing, HRM, Operations, Project Management, Information Systems, Technology Management, and Corporate Strategy. MDPs can be tailored as 'in-house' for specific corporate needs or conducted as 'open' programs.

SJMSOM has successfully conducted both short and long-duration in-house MDPs for companies like Godrej, ACC Cements, DRDO, ACG Worldwide, Axis Bank, Crompton & Greaves, Department of Atomic Energy, eClerx, Larsen & Toubro, Toyo Engineering, and Reliance Industries.

The school has also coordinated Faculty Development Programs for institutes such as ICT Matunga, Walchand College of Engineering Sangli, Bhimrao Ambedkar Technological University Lonere, and Kalinga Institute of Industrial Technology, Odisha. Faculty members from the School also offer open programs of varying durations in their respective expertise across all management fields.

Alumni Relations

The alumni stand as the epitome of our school's values. Across programs, whether it's the MBA or erstwhile Masters in Management Program, the Doctoral Program, or the Working Professional batches (2001-2004), our alumni consistently demonstrate the highest caliber. Notably, alumni play a distinctive role in the admission process, contributing their insights to identify crucial qualities in applicants vital for industrial or research careers. They are integral to the school's co-curricular initiatives, actively participating in interaction programs like Avenues, Continuum, and Diksha Series.
