THE VAULT

A Pitching Platform

NEW

unlocking the next big idea

VAULT is where bold ideas take centre stage. Designed for aspiring entrepreneurs and innovators, the event provides participants with a platform to pitch their business ideas before a panel of industry experts and investors. Participants do not need an existing startup—just a compelling idea, a strong vision, and the ability to convince the room of its potential.

The most promising ideas will be recognised and awarded, while select ventures may also get the opportunity to secure funding or investment interest from the investors on the panel, subject to their evaluation and discretion.

Pitch your idea. Prove its potential. Unlock what's next.
